SQL

EXPERIENCE

PROFESSIONAL

Neo Assure (Lalitpur, Nepal)

2024 - Present

Beemagojima

- Developed and maintained Beemagojima, a web application for purchasing motor and travel insurance policies online.
- Implemented backend services using ASP.NET Core, C#, and Entity Framework, ensuring scalable and secure performance.
- Built and integrated RESTful APIs to support seamless communication between client and server.
- Contributed to frontend development using AngularJS, improving user experience and responsiveness.

Neo CRM Service

- Developed a CRM system to manage service center operations, including job and complaint entry.
- Implemented job tracking and quotation features to streamline service workflows.
- Built filtering and search functionality for efficient job management.
- Designed RESTful APIs and managed database operations for reliable data handling.

PERSONAL PROJECT

- Created football jersey website using .NET and jQuery to create a dynamic website. The project involved designing an interactive platform for users to browse and purchase football jerseys.
